Notes for Readers

Please refer to the Choice Properties Real Estate Investment Trust (“Choice Properties” or the “Trust”) unaudited interim period condensed consolidated financial statements for the three and six months ended June 30, 2025 and accompanying notes (“Q2 2025 Financial Statements”) when reading this Management’s Discussion and Analysis (“MD&A”) as well as the Trust’s Audited Financial Statements and MD&A for the year ended December 31, 2024. In addition, this MD&A should be read in conjunction with the Trust’s “Forward-Looking Statements” as listed below. Choice Properties’ Q2 2025 Financial Statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS Accounting Standards” or “GAAP”) and were authorized for issuance by the Board of Trustees (“Board”).

In addition to using performance measures determined in accordance with IFRS Accounting Standards, Choice Properties’ management also measures performance using certain additional non-GAAP measures and provides these measures in this MD&A so that investors may do the same. Such measures do not have any standardized definitions prescribed under GAAP and are, therefore, unlikely to be comparable to similar measures presented by other real estate investment trusts or enterprises. Please refer to Section 14, “Non-GAAP Financial Measures”, for a list of defined non-GAAP financial measures and reconciliations thereof.

This second quarter report, including this MD&A, contains forward-looking statements about Choice Properties’ objectives, outlook, plans, goals, aspirations, strategies, financial condition, results of operations, cash flows, performance, prospects, opportunities, and legal and regulatory matters. Specific statements with respect to anticipated future results and events can be found in various sections of this MD&A, including but not limited to Section 3, “Investment Properties”, Section 5, “Results of Operations”, Section 6, “Leasing Activity”, Section 7, “Results of Operations – Segment Information”, Section 12, “Environmental, Social and Governance (“ESG”)”, and Section 13, “Outlook”. Forward-looking statements are typically identified by words such as “expect”, “anticipate”, “believe”, “foresee”, “could”, “estimate”, “goal”, “intend”, “plan”, “seek”, “strive”, “will”, “may”, “should”, “aspire”, “pledge”, “aim”, and similar expressions, as they relate to Choice Properties and its management.

Forward-looking statements reflect Choice Properties’ current estimates, beliefs and assumptions, which are based on management’s perception of historic trends, current conditions, outlook, and expected future developments, as well as other factors it believes are appropriate in the circumstances.

Choice Properties’ expectation of operating and financial performance is based on certain assumptions, including assumptions about the Trust’s future growth potential, prospects and opportunities, industry trends, future levels of indebtedness, tax laws, economic conditions and competition. Management’s estimates, beliefs and assumptions are inherently subject to significant business, economic, competitive and

other uncertainties and contingencies regarding future events and as such, are subject to change. Choice Properties can give no assurance that such estimates, beliefs and assumptions will prove to be correct.

Numerous risks and uncertainties could cause the Trust’s actual results to differ materially from those expressed, implied or projected in the forward-looking statements, including those described in Section 11, “Enterprise Risks and Risk Management” of this MD&A and the Trust’s Annual Information Form (“AIF”) for the year ended December 31, 2024. Selected highlights of such risks and uncertainties include:

- changes in economic conditions, including changes in interest rates and inflation rates, tariffs, and supply chain constraints;
- failure by Choice Properties to realize the anticipated benefits associated with its strategic priorities and major initiatives, including failure to develop quality assets and effectively manage development, redevelopment, and renovation initiatives and the timelines and costs related to such initiatives;
- failure to adapt to environmental and social risks, including failure to execute against the Trust’s environmental and social equity initiatives, and in the context of the Trust’s environmental, social and governance disclosures, additional factors such as the availability, accessibility and sustainability of comprehensive and high-quality data, and the development of applicable national and international laws, policies and regulations;
- the inability of Choice Properties’ information technology infrastructure to support the requirements of Choice Properties’ business, failure by Choice Properties to identify and respond to business disruptions, or the occurrence of any internal or external security breaches, denial of service attacks, viruses, worms or other known or unknown cyber security or data breaches;
- failure by Choice Properties to anticipate, identify and react to demographic changes, including shifting consumer preferences toward digital commerce, which may result in a decrease in demand for physical space by retail tenants;
- failure by Choice Properties to manage effectively and efficiently its property and leasing management processes; and
- the inability of Choice Properties to make acquisitions and dispositions of properties in accordance with its near and long-term strategies.

This is not an exhaustive list of the factors that may affect Choice Properties’ forward-looking statements. Other risks and uncertainties not presently known to Choice Properties could also cause actual results or events to differ materially from those expressed in its forward-looking statements.

Choice Properties’ financial results are impacted by adjustments to the fair value of the Class B LP units of Choice Properties Limited Partnership (the “Exchangeable Units”), unit-based compensation, the exchangeable Class B limited partnership units of Allied Properties Exchangeable Limited Partnership (“Class B Units”), a subsidiary of Allied Properties Real Estate Investment Trust (“Allied”) and investment properties. Exchangeable Units and unit-based compensation liabilities are recorded at their fair value based on the market trading price of the Trust Units, which results in a negative impact to the financial results when the Trust Unit price rises and a positive impact when the Trust Unit price declines. The publicly traded units of Allied (“Allied Units”) are recorded at fair value based on market trading prices of the publicly traded units of Allied. Investment properties are recorded at fair value based on valuations performed by the Trust’s internal valuations team. These adjustments to fair value impact certain of the GAAP reported figures of the Trust, including net income.

Additional risks and uncertainties are discussed in Choice Properties’ materials filed with the Canadian securities regulatory authorities from time to time, including without limitation, the Trust’s AIF for the year ended December 31, 2024. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect Choice Properties’ expectations only as of the date of this MD&A. Except as required by applicable law, Choice Properties does not undertake to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Choice Properties is an unincorporated, open ended mutual fund trust governed by the laws of the Province of Ontario and established pursuant to an amended and restated declaration of trust dated April 30, 2021, as may be amended, supplemented or restated from time to time (the “Declaration of Trust”). Choice Properties’ Trust Units (“Trust Units” or “Units”) are listed on the Toronto Stock Exchange (“TSX”) and are traded under the symbol “CHP.UN”.

George Weston Limited (“GWL”) is the controlling unitholder of the Trust and the controlling shareholder of Loblaw Companies Limited (“Loblaw”), the Trust’s largest tenant. As of June 30, 2025, GWL held a 61.7% effective interest in Choice Properties. Choice Properties’ ultimate parent is Wittington Investments, Limited (“Wittington”), the controlling shareholder of GWL.

Additional information about Choice Properties has been filed electronically with the Canadian securities regulatory authorities through the System for Electronic Document Analysis and Retrieval (“SEDAR+”) and is available online at www.sedarplus.ca.

The information in this MD&A is current to July 17, 2025, unless otherwise noted.

All amounts in this MD&A are reported in thousands of Canadian dollars, except where otherwise noted.

Balance Sheet Analysis (GAAP Basis)

Line Item	\$ Change	Variance Commentary
Investment properties \$ and assets held for sale	454,045	The increase was primarily due to acquisitions of \$378.5 million, a favourable fair value adjustment on investment properties of \$123.4 million, and capital and leasing expenditures of \$65.2 million. The increase was partially offset by dispositions of \$76.3 million.
Equity accounted joint ventures	(1,536)	The decrease was primarily due to net distributions received from joint ventures including the proceeds from recent net dispositions, partially offset by income earned from equity accounted joint ventures.
Mortgages, loans and notes receivable	(287,286)	The decrease was primarily due to the repayment of GWL's prior year outstanding notes receivable balance of \$299.8 million and net mortgages and loans receivable repayments of \$138.9 million, partially offset by \$151.4 million of notes receivable advanced to GWL in the current year.
Investment in real estate securities	119	The increase was due to a fair value gain of \$0.1 million in the period resulting from the increase in the price of Allied's publicly traded units.
Working capital, cash and cash equivalents	190,138	The net increase was primarily due to the reduction in the Exchangeable Units distribution payable to GWL upon settlement against prior year's notes receivable balance, partially offset by the distributions deferred in the current year.
Long term debt and Credit Facility	132,933	The increase was primarily due to the issuance of the \$300.0 million Series V senior unsecured debentures and the draw of \$200.0 million on the Trust's credit facility, partially offset by the repayment of the \$350.0 million Series J senior unsecured debentures.
Exchangeable Units	601,596	As this liability is measured at fair value, the change was due to the increase in the Trust's unit price since December 31, 2024.
Unitholders' equity	(378,080)	The decrease was primarily due to the year-to-date net loss, as well as the distributions to Unitholders.

3. INVESTMENT PROPERTIES

To expand the portfolio and participate in development opportunities, Choice Properties owns varying interests in real estate entities that hold investment properties. Under GAAP, many of these interests are recorded as equity accounted joint ventures and, as such, the Trust's share of the investment properties owned by these entities is presented on the balance sheet as a summarized value, not as part of the total investment properties. In addition, the Trust also has financial real estate assets which are not included with investment properties as prepared under GAAP.

The following continuity schedule presents Choice Properties' investment properties on a GAAP basis and inclusive of its proportionate share ownership in equity accounted joint ventures and financial real estate assets for the three months ended June 30, 2025:

The fair value of this excess land has been recorded in the consolidated financial statements.

3.1 Valuation Method

Investment properties are measured at fair value primarily determined using the discounted cash flow method. Under this methodology, discount rates are applied to the projected annual operating cash flows, generally over a minimum term of ten years, including a terminal value based on a capitalization rate applied to the estimated NOI⁽¹⁾ in the terminal year. The fair value of investment properties reflects, among other things, rental income from current leases and assumptions about rental income from future leases in light of current market conditions. Overall capitalization rates are applied when undertaking the Direct Capitalization method of the Income Approach. This methodology applies the overall capitalization rate to a future estimated stabilized NOI. Currently, this method is primarily applied to value residential assets and certain ground leases.

The portfolio is internally valued with external appraisals performed each quarter for a portion of the portfolio. The majority of the properties will be subject to an external appraisal at least once over a four-year period. When an external valuation is obtained, the internal valuation team assesses all major inputs used by the independent valuers in preparing their valuation reports and holds discussions with the independent valuers on the reasonableness of their assumptions. Where warranted, adjustments will be made to the internal valuations to reflect the assumptions contained in the external valuations. The Trust will record the internal value in its consolidated financial statements.

Valuations are most sensitive to changes in capitalization rates. The terminal capitalization rates and discount rates are the most relevant to the portfolio, under the application of the discounted cash flow method. The weighted average valuation metrics for the Trust's investment properties (including financial real estate assets and properties held within equity accounted joint ventures) are listed below by asset class:

As at June 30, 2025	Retail	Industrial	Mixed-Use & Residential	Total Investment Properties
Discount rate	7.29%	6.72%	5.88%	7.07%

Overall capitalization rate	6.31%	5.58%	4.94%	6.05%
As at December 31, 2024	Retail	Industrial	Mixed-Use & Residential	Total Investment Properties
Discount rate	7.32%	6.71%	5.77%	7.07%
Terminal capitalization rate	6.56%	5.88%	5.21%	6.31%
Overall capitalization rate	6.34%	5.59%	4.93%	6.06%

Valuation Commentary

For the three months ended June 30, 2025, the Trust recorded a favourable adjustment of \$93.5 million on a GAAP basis and a favourable adjustment of \$91.0 million on a proportionate share basis⁽¹⁾ to the value of investment properties. Fair value adjustments for the three months reflected changes in leasing assumptions, including the 2026 Loblaw renewals, and adjustments to discount and capitalization rates in the retail portfolio.

For the six months ended June 30, 2025, the Trust recorded a favourable adjustment of \$123.4 million on a GAAP basis and a favourable adjustment of \$131.0 million on a proportionate share basis⁽¹⁾ to the value of investment properties. Fair value adjustments for the six months reflected updates to market leasing assumptions, including the 2026 Loblaw renewals, and adjustments to discount and capitalization rates in the retail and industrial portfolios.

3.3 Completed Developments

For the six months ended June 30, 2025, Choice Properties completed a total of \$24.5 million in development projects delivering 128,500 square feet of retail space (including 79,500 square feet associated with ground leases) with a weighted average yield of 7.2%.

The Trust delivered seven retail developments including two Shoppers Drug Mart stores, one value retailer, eight quick service restaurants, and three ground leases.

The Trust also discloses the expected stabilized yield⁽²⁾ for each of its completed projects and projects under active development. Expected stabilized yield is calculated by dividing the expected stabilized net rental income for each development by the estimated total project costs. Stabilized net rental income is based on contracted rental rates on leased units, and market rental rates on non-leased units which are based on the Trust's market knowledge and, where applicable, supported by external market studies. Estimated project costs include land costs, soft and hard construction costs, development and construction management fees, tenant allowances and inducements, capitalized financing costs, and other carrying costs.

For the six months ended June 30, 2025, Choice Properties transferred the following from properties under development to income producing properties as presented on a proportionate share basis⁽¹⁾:

3.4 Development Activities

Development initiatives are a key component of Choice Properties' business model, providing the Trust with an opportunity to add high quality real estate at a reasonable cost and drive net asset value appreciation over time. The Trust has a mix of active development projects ranging in size, scale and complexity, including retail intensification projects, industrial development, and rental residential projects located in urban markets with a focus on transit accessibility. Choice Properties continues to drive long-term growth and value creation through the development of commercial and residential projects and has a significant long-term pipeline of potential mixed-use projects. The Trust views its development activities through the stages of the development lifecycle, including the process of potential site identification, planning and rezoning, construction, and finally to development completion.

3.5 Properties Under Active Development

Projects under active development are sites under construction or sites with appropriate approvals in place which are expected to commence construction in the next six to twelve months. Currently, the Trust has 18 active developments comprised of 16 retail, one industrial and one residential. Upon completion, the projects under active development are expected to deliver a total of 1,129,000 square feet of commercial space (including 93,000 square feet associated with ground leases). The Trust has invested a total of \$116.6 million to date and is expected to invest an additional \$208.5 million over the next 12-24 months to complete these projects⁽²⁾.

Projects Under Active Development – Retail

The Trust invests in retail development projects through intensification of its existing retail assets. The Trust currently has 300,000 square feet at share of active retail development (including 93,000 square feet associated with ground leases), which is expected to be completed in the next 12-24 months⁽²⁾.

Projects Under Active Development – Industrial

The Trust invests in industrial development projects through development of greenfield industrial land. The Trust currently has one active development project, which is expected to deliver 829,000 square feet at share of new generation logistics space in the near term⁽²⁾.

At Choice Caledon Business Park, the Trust expects to construct eight state-of-the-art, multi-use industrial buildings in four phases. The first phase, a Loblaw distribution centre, was completed in Q4 of 2024. Building H, the first building of Phase 2 is leased to National Logistics Services, a leading Canadian logistics provider, with rent commencement expected in the second quarter of 2026⁽²⁾. The remaining phases are expected to be completed over the next 60 months⁽²⁾.

3.6 Development in Planning

Beyond the projects under active development, Choice Properties has a substantial pipeline of larger, more complex mixed-use developments and land held for future commercial development in various stages of planning, which collectively are expected to drive meaningful net asset value growth in the future. The Trust continues to advance the rezoning status for several mixed-use sites currently in different stages of the rezoning and planning process.

As of June 30, 2025, the Trust has identified 24 sites with potential for future development. This includes 9 opportunities totalling 160,000 square feet at existing retail sites, two industrial sites totalling 4,230,000 square feet, and 13 residential and mixed-use projects totalling 12,615,000 square feet and 15,306 residential units (at the Trust's share). The development plan for each property is subject to completion of the Trust's full review of each opportunity. The expected project scope may change over time or the Trust may decide not to proceed with that development upon completion of full due diligence. To date, the Trust has invested a total of \$432.0 million on land acquisition and initial development and planning costs at these sites.

Retail Development in Planning

Retail intensification is focused on adding at-grade retail density within the existing retail portfolio. These projects provide the opportunity to add new tenants, further expand the high-quality tenant mix and provide steady growth to the business.

The Trust has obtained zoning approval on two industrial development sites. The following table details the Trust's industrial developments in planning:

Project / Location	Description
Choice Caledon Business Park - Remaining Phases, Caledon, ON	During the third quarter of 2022, the joint venture achieved entitlement to convert the lands from agricultural uses to employment uses through a Ministerial Zoning Order. The Draft Plan of Subdivision and Site Plan Applications for the first phase were submitted during the second quarter of 2023 and the grading permit was received and site works commenced. Site preparation costs for the subdivision of the remaining phases is expected to be \$90.0 million in total or \$76.4 million at share. The remainder of the development is expected to consist of warehouse, distribution, and industrial uses totalling approximately 4.2 million square feet on 205 net developable acres (at 100% share). The Trust has invested \$201.1 million to date, including land acquisition related to the remaining phases of the development.
Choice Eastway Industrial Centre - Phase 2, East Gwillimbury, ON	The second phase of the Trust's project constitutes approximately 54 acres (at 100% share) of developable land and is fully zoned. The second phase is anticipated to be approximately 0.8 million total square feet (at 100% share). The Trust has invested \$34.4 million to date, including land acquisition.

Mixed-Use & Residential Development in Planning

Mixed-use development represents a key component of Choice Properties' long-term development strategy. The Trust endeavours to create enduring value through high-quality mixed-use assets with a significant residential rental component. Leveraging the Trust's sizable portfolio in key urban markets, Choice Properties believes there are considerable value creation opportunities through rezoning existing grocery anchored assets into mixed-use sites. The development plan for each project is subject to municipal review and approval which may take several years to realize.

Once zoning and entitlement is obtained, the Trust can create additional value by pursuing ground up development, repositioning existing retail and maximizing available density for residential and mixed-use development. Choice Properties is working through the zoning and entitlement process for several of its future projects.

The Trust has obtained zoning approval on six residential and mixed-use developments and has submitted applications for five residential and mixed-use projects. A total of \$175.5 million has been invested to date on land acquisition and initial development and planning costs.

The following table details the Trust's residential and mixed-use development projects by zoning status:

Zoning Applications Approved

Obtaining zoning is a significant milestone in the development lifecycle. Zoning approval allows the Trust to unlock significant land value through the realization of residential density potential. Once zoning is approved, the next phase of the development process is obtaining all necessary permits, which allows the project to proceed to active development with construction commencement. The Trust has completed approvals on three mixed-use and three residential developments in Toronto, Ontario. As of June 30, 2025, the Trust has invested a total of \$89.1 million to date on land acquisition and initial development and planning costs.

Project / Location	Description
Carlaw Avenue, Toronto, ON	During the second quarter of 2024, Choice Properties entered into an agreement with the Province of Ontario (the "Province") to facilitate the construction of a transit station at its Carlaw Avenue property. In partnership with the Province, Choice Properties has developed a concept for the future transit-oriented community at this site, located at the northeast corner of Gerrard Street East and Carlaw Avenue. The approximately 5.6 acre site will become the anchor of the Gerrard TTC subway station on the future Ontario Line. The concept proposes three towers with approximately 1,000 residential units, retail offerings including a new food store, privately owned public space over the transit corridor, a new public street and a public park. Construction for the transit project commenced in 2024 and is expected to continue through 2030 and beyond ⁽²⁾ , at which point Choice Properties will begin construction on the residential towers. During the second quarter of 2025, the Province issued a Ministerial Zoning Order for the site, providing zoning permissions consistent with the proposed concept. While the site remains under the Province's control, it is expected to be returned to the Trust once the transit station is complete. At that time, the Trust will advance site plan approvals and detailed design in preparation for future development.
Golden Mile, Toronto, ON	The approximately 19 acre site is located along Eglinton Avenue in the Golden Mile district of Toronto. The current redevelopment plans contemplate a large, mixed-use master-plan community to be built in phases with a focus on high density residential and retail uses. The site is directly adjacent to new transit stations along the first phase of the Eglinton Crosstown LRT, which is currently under construction. The current plan includes approximately 3.2 million square feet of total ground floor area, with 0.3 million square feet of commercial GLA and approximately 3,600 residential units. The development will transform the area through the introduction of the Golden Mile Community Innovation District by bringing together expertise from all stakeholders including community organizations, the local councillor, and post-secondary educational institutions ⁽²⁾ . The development will create a community comprising residential and commercial uses along with privately owned public spaces including a new park. The Official Plan and Zoning By-law Amendment Applications have been approved by the City of Toronto and the Trust continues to work with the City to fulfill conditions of subdivision and site plan.
Grenville & Grosvenor, Toronto, ON	The approximately 1 acre site is located in the area of Yonge Street and College Street in downtown Toronto. The current development plan contemplates two residential towers providing a total 0.7 million square feet of total gross floor area, including 34,000 square feet of commercial GLA and approximately 770 rental residential units (at 100% share). Approximately one third of the residential units will be affordable housing units ⁽²⁾ .
Parkway Forest Drive, Toronto, ON	The approximately 3 acre site is located at the southeast intersection of Parkway Forest Drive and Sheppard Avenue East in Toronto. The site is located 350 meters from the Don Mills TTC subway station and currently features a 19-storey rental building and ten rental townhouses. The proposed development will replace five of the existing townhouses with a 33-storey residential building comprised of approximately 380 units (at 100% share). This intensification will support future growth in the City of Toronto by providing additional rental housing stock in a transit-connected neighbourhood. The Official Plan Amendment and Zoning By-law Amendment have been approved by the City of Toronto.
Sheppard Avenue West, Toronto, ON	The 0.6 acre site is located at the northeast corner of Allen Road and Sheppard Avenue West in Toronto. The site is approximately 400 meters from the Sheppard West TTC subway station and in close proximity to Downsview Park and Downsview Airport. The current development plans include a 15-storey residential building comprising 10,000 square feet of commercial GLA and approximately 200 residential units (at 100% share).
Woodbine Avenue, Toronto, ON	The approximately 1.7 acres site is located at the northeast intersection of Woodbine Avenue and Danforth Avenue in the Danforth neighbourhood of Toronto. The site is directly adjacent to the Woodbine TTC subway station. Toronto City Council has approved the redevelopment of the site into a mixed-use project. The approved plan includes a new at-grade grocery store, a theatre, and a preschool. The project will feature two residential buildings of 35 and 10 storeys, comprising approximately 600 purpose-built rental units. This includes 12 affordable units and 14 replacement units for existing tenants, aligning the development with community and housing objectives. The design of this project will incorporate the urban design significance of the Danforth neighbourhood and sustainable architecture. It will improve the public realm through the addition of a significant privately owned public open space on Woodbine Avenue and the widening of both Danforth Avenue and Woodbine Avenue. Zoning approval was achieved during the fourth quarter of 2024.

Zoning Applications Submitted

Choice Properties has submitted zoning applications for five mixed-use developments in Toronto, Ontario and Coquitlam, British Columbia. As of June 30, 2025, the Trust has invested a total of \$80.3 million to date on land acquisition and initial development and planning costs.

Project / Location	Description
Broadview Avenue, Toronto, ON	The approximately 3.3 acre site is located at the southwest corner of Danforth Avenue and Broadview Avenue in Toronto's east end and is situated less than 150 metres from the Broadview TTC subway station. The current development proposal includes one residential tower, a new grocery store and a public park. The submitted application proposes 0.4 million square feet of total ground floor area, and approximately 500 residential units. The Trust continues to refine the vision for a mixed-use, transit-oriented development that will transform an underutilized site while highlighting the natural heritage and green connections of the existing community. The Official Plan, Zoning By-law Amendment and Draft Plan of Subdivision Applications have been submitted to the City of Toronto.
Dundas Street West, Toronto, ON	The approximately 13 acre site is located at the southeast corner of Dundas Street West and Bloor Street West in Toronto, at the intersection of several major transit corridors including a TTC subway station, a GO train station and the Union-Pearson Express train. The current redevelopment plans contemplate a large mixed-use community integrated with the surrounding transit services with a focus on high density residential, office, retail and other community uses including a public park. The submitted application proposes approximately 1.7 million square feet of total ground floor area, including 0.2 million square feet of commercial GLA and approximately 1,900 residential units. The Official Plan, Rezoning, Plan of Subdivision and Site Plan Applications have been submitted to the City of Toronto.
North Road, Coquitlam, BC	The approximately 7.8 acre site is located at the southeast corner of North Road and Austin Avenue in Coquitlam. The Master Development Plan proposes the redevelopment of the existing Cariboo Centre into a diverse range of housing, retail, public amenity space, and childcare over four phases. The overall project, upon completion, will see a total of approximately 2,500 new homes through both market residential and rental in six towers, along with approximately 110,000 square feet of retail space within commercial podiums, including a new food store and a drug store within Phase 1 and a daycare in both Phases 1 and 4. In addition, the overall project will deliver approximately 26,000 square feet of public plaza. The Master Development Plan was submitted to the City of Coquitlam in December 2023 with resubmission in May 2024. The entitlements process associated with the Master Development Plan along with the Development Permit application for Phase 1 continue to progress.
Photography Drive, Toronto, ON	The approximately 7.7 acre site is located at the southwest corner of Eglinton Avenue West and Black Creek Drive in Toronto, within close proximity to several major transit corridors, including the Kitchener GO Line, the Union-Pearson Express train and the future Eglinton Crosstown LRT. The proposed redevelopment is comprised of seven mixed-use buildings including residential and retail uses. The application includes a total gross floor area of approximately 2.1 million square feet and 2,400 residential units. Choice Properties continues to refine the vision for a mixed-use, inclusive community where people can live and access amenities, services, transit, and a brand new grocery store, all within walking distance. The Official Plan and Zoning By-law Amendment Applications have been submitted to the City of Toronto.
Warden Avenue, Toronto, ON	The approximately 6.5 acre site is located south of the intersection of Saint Clair Avenue and Warden Avenue in Toronto and 500 meters from the Warden TTC subway station. The current development plan includes approximately 2,100 residential units, over 1.3 million square feet of gross floor area and a proposal for a public park. The Trust has reached a settlement with the City of Toronto and is working to clear conditions prior to the issuance of an Official Plan Amendment and Zoning By-law Amendment.

3.7 Future Pipeline

Choice Properties' long-term development strategy is to create value through residential and mixed-use development. Beyond the projects that are currently in planning, the Trust has identified more than approximately 70 sites encompassing over 500 acres in its existing portfolio that provide potential for incremental residential and mixed-use density through the intensification of an existing asset. Over 90% of the identified sites are in the greater Toronto, Montreal and Vancouver areas, providing the opportunity to grow the residential platform in Canada's largest cities. Choice Properties is actively reviewing and prioritizing these sites to proceed with the rezoning and entitlement process.

3.8 Mortgages, Loans and Notes Receivable

As a means to generate acquisition opportunities, Choice Properties has established a program with a group of strong real estate developers whereby Choice Properties provides mezzanine and/or co-owner financing. Such financing activities generally provide Choice Properties with an option or other rights to acquire an interest in the developed income producing property. Mortgages and loans receivable represent amounts advanced under mezzanine loans, joint venture financing, vendor take-back financing and other arrangements.

As at June 30, 2025, the Trust has issued \$280,951 (December 31, 2024 - \$305,348) of secured mortgages to third-party borrowers. These loans have been extended to borrowers who are strategic partners and counterparties of the Trust and are secured by real property assets.

On January 31, 2025, the Trust advanced a \$5,918 mortgage to a joint venture partner. The loan bears interest at a rate of 5.00% and is secured by the partner's portion of an income producing retail property in Richmond Hill, Ontario.

On January 31, 2025, the loan receivable from a development partner and interest accrued thereon totalling \$20,868 was settled against the contingent consideration payment owed to the development partner.

On January 31, 2025, a mortgage receivable and interest accrued thereon totalling \$114,217 (\$19,915 on a proportionate share basis), issued to an entity in which the Trust has an ownership interest, was repaid.

On March 5, 2025, the Trust advanced \$15,000 on an existing mezzanine loan to a joint venture partner. The loan bears interest at a rate of prime rate plus 3.55% with a floor rate of 10.00% and is secured by the partner's portion of an income producing residential property in Ottawa, Ontario.

On June 10, 2025, the Trust advanced a \$4,954 on an existing mezzanine loan to a joint venture partner. The loan bears interest at a rate of 6.00% and is secured by the partner's portion of an income producing mixed-use & residential property in Toronto, Ontario.

Holders of Exchangeable Units may, in lieu of receiving all or a portion of their distributions, choose to be loaned an amount from Choice Properties Limited Partnership, and to have such distributions made on the first business day following the end of the fiscal year in which such distribution would otherwise have been made. The loans do not bear interest and are due and payable in full on the first business day following the end of the fiscal year during which the loan was made. During the six months ended June 30, 2025, GWL elected to receive distributions from Choice Properties Limited Partnership in the form of loans. As such, non-interest bearing short-term notes totalling \$151,388 were issued to GWL. Non-interest bearing short-term notes totalling \$299,807 with respect to the loans issued in the 2024 fiscal year were settled against distributions payable by the Trust to GWL in January 2025.

4. LIQUIDITY AND CAPITAL RESOURCES

4.1 Liquidity and Capital Structure

Choice Properties expects to fund its ongoing operations and finance future growth primarily through the use of: (i) existing cash; (ii) cash flows from operations; (iii) short-term financing through the committed credit facility; (iv) the issuance of unsecured debentures and equity (including Exchangeable Units), subject to market conditions; and (v) secured mortgages. Given reasonable access to capital markets, Choice Properties does not foresee any impediments in obtaining financing to satisfy its short-term and long-term financial obligations, including its capital investment commitments⁽²⁾.

Base Shelf Prospectus

On June 20, 2025, Choice Properties renewed a Short Form Base Shelf Prospectus allowing for the issuance of Units and debt securities over a 25-month period.

Three and Six Months

During the three and six months ended, cash was primarily used for net acquisitions of investment properties, cash distributions paid on Trust Units, capital expenditures, and net mortgages, loans and notes receivable advances. Cash outflows were partially offset by cash generated from credit facility advances and operations.

In addition, for the six month period, cash was used for net repayments of senior unsecured debentures.

Cash flows from operating activities are partially used to fund ongoing operations and expenditures for leasing capital and property capital⁽²⁾.

4.3 Adjusted Cash Flow from Operations (“ACFO”)

Adjusted Cash Flow from Operations⁽¹⁾ excludes most of the short-term fluctuations in non-cash working capital, such as property tax instalments, and the timing of semi-annual debenture instalments, although some fluctuations between quarters for operational cash flows still exist. ACFO⁽¹⁾ also adjusts cash flows from operating activities for the working capital requirements related to operating capital expenditures that maintain productive capacity of the investment properties, which adds volatility to the values due to the seasonality of capital projects. Management includes this non-GAAP measure in its assessment of cash flows available for distributions. Refer to Section 14.4, “Adjusted Cash Flow from Operations”, for a reconciliation of ACFO⁽¹⁾ to cash flows from operating activities, as determined in accordance with GAAP.

The table below summarizes the ACFO⁽¹⁾ metrics:

For the periods ended June 30 (\$ thousands)	Three Months			Six Months		
	2025	2024	Change \$	2025	2024	Change \$

Cash retained after cash distributions	\$ 36,120	\$ 57,083	\$ (20,963)	\$ 74,179	\$ 94,701	\$ (20,522)
ACFO ⁽¹⁾ payout ratio	79.4 %	70.7 %	8.7 %	78.9 %	74.3 %	4.6 %

Three and Six Months

ACFO⁽¹⁾ decreased for the three and six months compared to the same prior year periods primarily due to higher leasing and maintenance spend in the current year period, an unfavourable change in working capital, higher interest expense, and lower interest income. The decrease was partially offset by higher net operating income and lower general and administrative expenses. In addition, the decrease for the six months was further offset by higher fee income resulting from the termination of an agreement with a development partner in the first quarter of the current year.

ACFO⁽¹⁾ may fluctuate each quarter due to the timing of maintenance capital spend during the year.

For the purpose of financing the development of certain industrial and mixed-use & residential properties, various investments in equity accounted joint ventures and co-ownerships have variable rate non-revolving construction facilities, in which certain subsidiaries of the Trust guarantee its own share. As at June 30, 2025, the construction loans have a maximum capacity to be drawn at the Trust's ownership interest of \$276,225, of which \$270,700 relates to equity accounted joint ventures (December 31, 2024 - \$276,225 and \$270,700, respectively). Credit Facility

Choice Properties has a \$1,500,000 senior unsecured committed revolving credit facility provided by a syndicate of lenders. During the second quarter of 2025, the Trust extended the maturity date for the credit facility from June 13, 2029 to May 21, 2030.

Under the credit facility, the Trust has the ability to draw funds at variable rates in either Canadian dollars or U.S. dollars. Canadian dollar-denominated borrowings bear interest at either the Canadian bank prime rate plus 0.20% or Canadian Overnight Repo Rate Average ("CORRA") plus 1.20% and a daily compounded CORRA adjustment of approximately 0.30%, and U.S. dollar-denominated borrowings bear interest at the U.S. prime rate plus 0.30% or Secured Overnight Financing Rate ("SOFR") plus 1.30%. The pricing is contingent on the credit ratings for Choice Properties from either DBRS remaining at BBB (high) or S&P

remaining at BBB+. Concurrently with any U.S. dollar draws, the Trust enters into cross currency swaps to exchange its U.S. dollar borrowings into Canadian dollar borrowings. The Trust applies hedge accounting to the cross currency swaps.

As at June 30, 2025, the Trust had U.S. dollar-denominated borrowings totaling \$145,529, equivalent to \$200,000 Canadian dollars (December 31, 2024 - \$nil) and \$nil (December 31, 2024 - \$nil) in Canadian dollar-denominated borrowings. Concurrent with the draws, the full amount of U.S. dollar-denominated borrowings was exchanged into Canadian dollars. As at June 30, 2025, the credit facility balance was revalued at \$198,820 Canadian dollars.

The credit facility contains certain financial covenants. As at June 30, 2025, the Trust was in compliance with all its financial covenants for the credit facility. The credit facility is subject to an annual commitment fee of 0.24% of the undrawn balance.

Senior Unsecured Debentures

The repayment of the Series J senior unsecured debenture was primarily funded by an advance on the Trust's credit facility.

On January 16, 2025, the Trust completed the issuance, on a private placement basis, of the \$300 million aggregated principal amount of Series V senior unsecured debentures bearing interest at a rate of 4.29% per annum and maturing on January 16, 2030. The Trust used the net proceeds to repay certain amounts drawn on its revolving credit facility which were utilized to repay upon maturity its Series J senior unsecured debentures.

Distributions

The distributions declared for the three and six months ended June 30, 2025 and 2024, including distributions to holders of Exchangeable Units, were as follows:

For the periods ended June 30 (\$ thousands)	Three Months			Six Months		
	2025	2024	Change \$	2025	2024	Change \$
Net distributions declared	\$ 139,334	\$ 137,492	\$ 1,842	\$ 277,455	\$ 273,779	\$ 3,676

Choice Properties' Board retains full discretion with respect to the timing and quantum of distributions and expects to distribute the amount necessary to ensure the Trust will not be liable to pay income taxes under Part I of the *Income Tax Act (Canada)*⁽ⁱ⁾. Accordingly, no provision for current income taxes payable is required, except for amounts incurred for the Trust's Canadian corporate subsidiaries. The taxable income allocated to the Trust and Exchangeable Unitholders may vary in certain taxation years. Over time, such differences, in aggregate, are expected to be minimal.

On February 12, 2025, the Board reviewed and approved an increase of distributions to \$0.77 per unit per annum from the previous rate of \$0.76 per unit per annum (an increase of 1.3%). The increase was effective for Unitholders of record on March 31, 2025.

In determining the amount of distributions to be made to Unitholders, Choice Properties' Board considers many factors, including provisions in its Declaration of Trust, macro-economic and industry specific environments, the overall financial condition of the Trust, future capital requirements, debt covenants, and taxable income. In accordance with Choice Properties' Distribution Policy, management and the Board regularly review Choice Properties' rate of distributions to assess the stability of cash and non-cash distributions.

(i) Choice Properties qualified as a "mutual fund trust" and a "real estate investment trust" under the Income Tax Act (Canada).

4.9 Net Asset Value

NAV⁽¹⁾ is an alternate measure of equity and includes Unitholder's Equity and the fair value of the Trust's Exchangeable Units. Under GAAP, Exchangeable Units are considered debt. The Exchangeable Units are not required to be repaid and the holder of these units has the right to convert them into Units, therefore management considers the Exchangeable Units to be equivalent to equity.

4.10 Financial Instruments

Designated hedging derivatives consist of interest rate swaps to hedge the interest rate associated with an equivalent amount of variable rate mortgages, and cross currency swaps to hedge foreign exchange associated with the equivalent amount borrowed in U.S. dollars on the Trust's credit facility. (i) Investment income is comprised of distributions from the Trust's investment in Allied.

Adjustments to fair value can vary widely from period to period, as they are impacted by market factors such as the Trust's Unit price, Allied's publicly traded unit price, and market capitalization rates. These market factors can have a significant impact on the Trust's net income.

Three Months

The Trust reported a net loss of \$154.2 million for the three months compared to net income of \$513.2 million for the same prior year period. The decrease was primarily due to changes in certain non-cash adjustments to fair value including: a \$736.2 million unfavourable change in the adjustment to fair value of the Trust's Exchangeable Units due to the change in the Trust's unit price, partially offset by a \$65.5 million favourable change in the adjustment to fair value of investment properties and a \$37.0 million favourable change in the adjustment to fair value of the investment in real estate securities of Allied due to the change in Allied's unit price.

In addition to the fair value changes described above, the reversal of a \$38.6 million transaction related provision during the second quarter of 2024 further contributed to the decrease. The decrease was partially offset by higher net operating income of \$9.4 million.

Six Months

The Trust reported a net loss of \$250.5 million for the six months compared to net income of a \$655.5 million for the same prior year period. The decrease was primarily due to changes in certain non-cash adjustments to fair value including: a \$1,040.9 million unfavourable change in the adjustment to fair value of the Trust's Exchangeable Units due to the change in the Trust's unit price, partially offset by a \$96.8 million favourable change in the adjustment to fair value of investment properties and a \$57.6 million favourable change in the adjustment to fair value of the investment in real estate securities of Allied due to the change in Allied's unit price.

In addition to the fair value changes described above, the reversal of a \$38.6 million transaction related provision during the second quarter of 2024 further contributed to the decrease. The decrease was partially offset by higher net operating income of \$15.4 million.

Rental Revenue and Property Operating Costs

Rental revenue is comprised primarily of base rent, including straight-line rent, and recoveries from tenants for property taxes, insurance, operating costs, and qualifying capital expenditures. Growth in rental revenue is materially impacted by newly acquired or constructed assets.

Property operating costs are comprised primarily of expenses to manage and maintain the properties for the benefit of the tenants, including realty taxes and insurance, that are recoverable under the leases of most tenants. Non-recoverable operating costs do not directly benefit the tenants and include property management fees paid by the Trust for properties managed by its partners.

Three and Six Months

Net operating income increased for the three and six month periods compared to the same prior year periods primarily due to increased rental revenue from higher rental rates on renewals, new leasing, and contractual rent steps mainly in the retail and industrial portfolios. Further contributing to the increase were contributions from net acquisitions and completed developments over the past twelve months. The increase was partially offset by lower lease surrender revenue and a bad debt provision reversal in the prior year in the industrial portfolio following the resolution of a tenant dispute.

In addition, the increase for the six months included a property tax incentive recognized in the mixed-use and residential portfolio in the first quarter of 2025.

Three and Six Months

For the three months ended, there were no residential inventory sales in the current or prior year periods. Residential inventory income decreased for the six months compared to the same prior year period as the Trust recognized gross sales and cost of sales related to the sale of its ownership interest of 36 condominium units of its Mount Pleasant Village residential project in Brampton, Ontario in the first quarter of the prior year.

Three and Six Months

Interest income decreased for the three and six month periods compared to the same prior year periods primarily due to a decrease in interest income earned on excess cash and changes in fair value from financial real estate assets.

A higher excess cash balance was held in the second quarter of 2024 following the issuance of the \$500 million Series U senior unsecured debentures, ahead of the the repayment of the \$550 million Series K senior unsecured debentures in the third quarter of 2024.

Fee Income

Fees charged to third parties include property management fees, leasing fees, and project management fees relating to co-owned properties which serve as a cash flow supplement to enhance returns from the co-owned assets. Fee income from third parties is impacted by changes in the portfolio along with the timing of leasing transactions and project activity. Choice Properties provides Wittington with property management services for certain properties with third-party tenancies and development consulting services on a fee for service basis (see Section 9, "Related Party Transactions").

Three Months

Fee income increased for the three months compared to the same prior year period primarily due to higher property management fees provided to third parties in the current quarter.

Six Months

Fee income increased for the six months compared to the same prior year period primarily due to a fee recognized resulting from the termination of an agreement with a development partner in the first quarter of 2025, as well as higher property management fees provided to third parties in the current quarter.

Three and Six Months

General and administrative expenses decreased for the three and six month periods compared to the same prior year periods primarily due to restructuring costs related to the outsourcing of a portion of the Trust's operational accounting function, partially offset by higher information technology costs.

6. LEASING ACTIVITY

Choice Properties' leasing activities are centred on driving value by:

- focusing on property operations and striving for superior service to tenants;
- managing properties to maintain high levels of occupancy;
- increasing rental rates when market conditions permit; and
- adding tenants in complementary business sectors to retail sites anchored by Loblaw food and drug stores.

The following table details the changes for in-place occupancy by segment for the three months ended June 30, 2025:

Three Months

Ending occupancy of 97.8% was up 10 bps compared to the prior period.

Occupancy in the retail segment remained stable. Retention of 74.5% was lower than normal due to selective strategic expiries, including a restaurant in Ontario and a specialty store in Alberta, which have largely been re-leased at higher rents to tenants with stronger covenants, including two grocery stores, a pharmacy, and a specialty retailer.

Occupancy in the industrial segment improved by 30 bps due to new leasing in the Ontario and Alberta portfolios. Retention of 66.1% was lower than normal due to the expiry of a 124,000 square foot unit, which was re-leased within the quarter.

The following table details the changes for in-place occupancy by segment for the six months ended June 30, 2025:

Six Months

Overall occupancy improved to 97.8% as at June 30, 2025 from 97.6% as at December 31, 2024.

Occupancy improved in the retail segment due to positive absorption of 77,000 square feet, primarily in the Alberta and Quebec portfolios.

Occupancy improved in the industrial segment due to positive absorption of 26,000 square feet, primarily in the Ontario portfolio, largely offset by negative absorption in the Nova Scotia portfolio. Retention of 68.6% was lower than normal due to the expiry of a 124,000 square foot unit, which was re-leased within the period.

Choice Properties' principal tenant, Loblaw, represents 59.8% of its total GLA (December 31, 2024 - 58.9%). Subsequent to the quarter end, Choice and Loblaw renewed 39 of a tranche of 41 leases expiring in 2026, comprising 2.52 million of 2.62 million square feet, at a weighted average spread of 8.6% and a weighted average extension term of 5.0 years.

Stability is attained through a strategic relationship and long-term leases with Loblaws.

The Trust's ten largest retail tenants as at June 30, 2025 represented approximately 55.6% of total annualized gross rental revenue and 74.0% of retail annualized gross rental revenue, as calculated on a proportionate share basis⁽¹⁾. Industrial Tenant Profile

Choice Properties' industrial portfolio is centred on large, purpose-built distribution facilities for Loblaw and high-quality "generic" industrial assets that readily accommodate the diverse needs of a broad range of tenants. The term "generic" refers to a product that appeals to a wide range of potential users, such that the leasing or re-leasing timeframe is reduced.

The Trust's ten largest industrial tenants as at June 30, 2025 represented approximately 13.6% of total annualized gross rental revenue and 62.6% of industrial annualized gross rental revenue, as calculated on a proportionate share basis⁽¹⁾. 7. RESULTS OF OPERATIONS - SEGMENT INFORMATION

7.1 Net Income and Segment NOI Reconciliation

Choice Properties operates in three reportable segments: retail, industrial, and mixed-use & residential. Management measures and evaluates the performance of the Trust based on net operating income, which is presented by segment below at the proportionate share of the related revenue and expenses for these properties, while other net income items are reviewed on a consolidated GAAP basis.

The following table reconciles net loss on a proportionate share basis⁽¹⁾ to net loss as determined in accordance with GAAP for the three months ended June 30, 2025:

7.2 Net Operating Income⁽¹⁾ Summary

NOI⁽¹⁾ is a supplemental measure of operating performance widely used in the real estate industry. There is no industry-defined definition of NOI⁽¹⁾. Refer to Section 14.1, “Net Operating Income”, of this MD&A for a definition of NOI⁽¹⁾ and a reconciliation to net (loss) income determined in accordance with GAAP.

Management also measures performance of operating segments using NOI⁽¹⁾ as calculated on a proportionate share basis⁽¹⁾ and, in particular, Same-Asset NOI, which isolates Management’s success at dealing with certain key performance factors. “Same-Asset” refers to those properties that were owned and operated by Choice Properties for the entire 18 months ended June 30, 2025, and where such properties had no changes to income as a result of acquisitions, dispositions, new developments, redevelopments and expansions, intensifications, transfers, or demolitions (collectively, “Transactions”). NOI related to Transactions for the period is presented separately from the Same-Asset financial results.

Choice Properties’ NOI⁽¹⁾, calculated on a proportionate share basis⁽¹⁾ to incorporate the Trust’s investment in equity accounted joint ventures and financial real estate assets as if they were owned directly, for the three and six months ended June 30, 2025 and 2024 is summarized below.

Three and Six Months

Same-Asset NOI, Cash Basis increased by 1.4% and 2.1% for the three and six month periods, respectively, primarily due to increased revenue from higher rental rates on renewals, new leasing, and contractual rent steps mainly in the retail and industrial portfolios. The increase was partially offset by the impact of a bad debt provision reversal in the prior year in the industrial portfolio following the resolution of a tenant dispute.

In addition, the increase for the six month period included a property tax incentive recognized in the mixed-use and residential portfolio in the first quarter of 2025.

Transactions NOI increased for the three and six month periods primarily due to the contribution from acquisitions and development transfers, partially offset by the foregone income from dispositions.

Funds from Operations ("FFO")⁽¹⁾

FFO⁽¹⁾ is calculated in accordance with the Real Property Association of Canada's *Funds from Operations & Adjusted Funds from Operations for IFRS* issued in January 2022. From time to time the Trust may enter into transactions that materially impact the calculation of FFO⁽¹⁾ and accordingly the impact of these items are excluded from the calculation for management's review purposes. Refer to Section 14.2, "Funds from Operations" for a reconciliation of FFO⁽¹⁾ to net (loss) income determined in accordance with GAAP.

Three and Six Months

FFO⁽¹⁾ increased for the three and six month periods primarily due to an increase in net operating income and lower general and administrative expenses. The increase was partially offset by higher interest expense and lower interest income.

Adjusted Funds from Operations ("AFFO")⁽¹⁾

AFFO⁽¹⁾ is calculated in accordance with the Real Property Association of Canada's *Funds from Operations & Adjusted Funds from Operations for IFRS* issued in January 2022. From time to time the Trust may enter into transactions that materially impact the calculation of AFFO⁽¹⁾ and accordingly the impact of these items are excluded from the calculation for management's review purposes. Refer to Section 14.3, "Adjusted Funds from Operations" for a reconciliation of AFFO⁽¹⁾ to net income determined in accordance with GAAP.

Three and Six Months

AFFO⁽¹⁾ decreased for the three and six months compared to the same prior year period primarily due to the earlier commencement of maintenance capital projects in the current year, partially offset by the increase in FFO⁽¹⁾ as noted above. AFFO⁽¹⁾ is impacted by the seasonality inherent in the timing of executing capital projects.

Property capital expenditures incurred to sustain the existing GLA for investment properties are considered to be operational and are deducted in the calculation of AFFO⁽¹⁾ and ACFO⁽¹⁾. During the three and six months ended June 30, 2025, Choice Properties incurred \$12,940 and \$14,332, respectively, of property capital expenditures, which may be recoverable from tenants under the terms of their leases over the useful life of the improvements (June 30, 2024 - \$2,585 and \$7,038, respectively). Recoverable capital improvements may include items such as parking lot resurfacing and roof replacements. These items are recorded as part of investment properties and the recoveries from tenants are recorded as revenue.

Capital expenditures for leasing activities, such as direct leasing costs or leasing commissions, and tenant improvement allowances are considered to be operational and are deducted in the calculation of AFFO⁽¹⁾ and ACFO⁽¹⁾. Leasing capital expenditures vary with tenant demand and the balance between new and renewal leasing, as capital expenditures relating to securing new tenants are generally higher than the cost for renewing existing tenants.

- (i) Includes GLA that represents the building area on properties where the Trust has leased the underlying sites to the tenants through ground leases and GLA associated with Choice Properties' residential units.
- (ii) The Exchangeable Units are excluded from the debt ratio calculations. The ratios are non-GAAP financial measures calculated based on the Trust Indentures, as supplemented.

Choice Properties' quarterly results are impacted by acquisition and disposition activity and the development of additional GLA. In addition, net (loss) income is impacted by fluctuations in adjustments to fair value of Exchangeable Units, investment properties, investment in real estate securities, and unit-based compensation, and therefore are often not comparable from quarter to quarter.

9. RELATED PARTY TRANSACTIONS

Choice Properties' controlling unitholder is GWL, which, as at June 30, 2025, held either directly or indirectly, a 61.7% effective interest in the Trust through ownership of 50,661,415 Units and all the Exchangeable Units, which are economically equivalent to and exchangeable to Units. Choice Properties' ultimate parent is Wittington, the controlling shareholder of GWL. Galen G. Weston beneficially owns or controls, directly and indirectly, including through Wittington, approximately 59.0% of GWL's outstanding common shares. Galen G. Weston also beneficially owns 1,518,850 of the Trust's Units.

GWL is also the controlling shareholder of Loblaw, with ownership of 52.6% of outstanding common shares as at June 30, 2025 (December 31, 2024 - 52.6%). Therefore, Choice Properties is a related party of Loblaw by virtue of common control.

Loblaw represents approximately 57.5% of Choice Properties' rental revenue on a proportionate share basis⁽¹⁾ and 59.8% of its commercial GLA as at June 30, 2025 (December 31, 2024 - 57.4% and 58.9%, respectively).

Leases

Subsequent to the quarter end, Choice Properties and Loblaw renewed 39 of a tranche of 41 leases expiring in 2026, comprising 2.52 million of 2.62 million square feet, at a weighted average spread of 8.6% and a weighted average extension term of 5.0 years.

Acquisitions

During the six months ended June 30, 2025, Choice Properties acquired from Loblaw a retail property in Brampton, Ontario for a purchase price of \$33,200 and an industrial distribution centre in Ajax, Ontario for a purchase price of \$182,290.

In each case the purchase price excludes transaction costs. Concurrent with the transactions, the properties were leased back to Loblaw.

Lease Surrender Revenue

During the three and six months ended June 30, 2025, Choice Properties recognized \$nil and \$nil of lease surrender revenue from Loblaw, respectively (June 30, 2024 - \$401 and \$2,912, respectively).

Services Agreement

During the six months ended June 30, 2025, GWL provided Choice Properties with corporate, administrative and other support services for an annualized cost of \$4,988 (December 31, 2024 - \$4,988).

Strategic Alliance Agreement

The Strategic Alliance Agreement creates a series of rights and obligations between Choice Properties and Loblaw intended to establish a preferential and mutually beneficial business and operating relationship. The initial term of the Strategic Alliance Agreement expired on July 5, 2023. Upon expiry of the initial term, the Strategic Alliance Agreement renewed until July 5, 2033 or the date on which GWL and its affiliates own less than 50% of the Trust on a fully diluted basis. The Strategic Alliance Agreement provides Choice Properties with important rights that are expected to meaningfully contribute to the Trust's growth. Subject to certain exceptions, rights include:

- Choice Properties has the right of first offer to purchase any property in Canada that Loblaw seeks to sell;
- Loblaw is generally required to present shopping centre property acquisitions in Canada to Choice Properties to allow the Trust a right of first opportunity to acquire the property itself; and
- Choice Properties has the right to participate in future shopping centre developments involving Loblaw.

Included in certain investment properties acquired from Loblaw is excess land with development potential. In accordance with the Strategic Alliance Agreement, Choice Properties will compensate Loblaw, over time, with intensification payments, as Choice Properties pursues development, intensification or redevelopment of such excess land. The payments to Loblaw are calculated in accordance with a payment grid that takes into account the region, market ranking and type of use for the property.

Management Agreements

Choice Properties provides Wittington with property management services for certain properties with third-party tenancies and development consulting services on a fee for service basis.

Site Intensification Payments

Choice Properties compensated Loblaw with intensification payments of \$3,215 in connection with completed gross leasable area for which tenants took possession during the six months ended June 30, 2025 (June 30, 2024 - \$1,242).

Distributions on Exchangeable Units

GWL, directly or indirectly, holds all of the Exchangeable Units issued by Choice Properties Limited Partnership, a subsidiary of Choice Properties. During the three and six months ended June 30, 2025, distributions declared on the Exchangeable Units totalled \$76,189 and \$151,718, respectively (June 30, 2024 - \$75,199 and \$149,739, respectively).

As at June 30, 2025, Choice Properties had distributions on Exchangeable Units payable to GWL of \$176,785 (December 31, 2024 - \$324,873).

Notes Receivable

Holders of Exchangeable Units may, in lieu of receiving all or a portion of their distributions, choose to be loaned an amount from Choice Properties Limited Partnership, and to have such distributions made on the first business day following the end of the fiscal year in which such distribution would otherwise have been made. The loans do not bear interest and are due and payable in full on the first business day following the end of the fiscal year during which the loan was made. During the six months ended June 30, 2025, GWL elected to receive distributions from Choice Properties Limited Partnership in the form of loans. As such, non-interest bearing short-term notes totalling \$151,388 were issued to GWL. Non-interest bearing short-term notes totalling \$299,807 with respect to the loans received in the 2024 fiscal year were settled against distributions payable by the Trust to GWL in January 2025.

Trust Unit Distributions

During the three and six months ended June 30, 2025, Choice Properties declared cash distributions of \$9,752 and \$19,420, respectively, on the Units held by GWL (June 30, 2024 - \$9,626 and \$19,167, respectively). As at June 30, 2025, \$3,251 of Trust Unit distributions declared were payable to GWL (December 31, 2024 - \$3,209).

10. INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Trust is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial reports for external purposes in accordance with IFRS Accounting Standards.

In designing such controls, it should be recognized that due to inherent limitations, any controls, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Additionally, management is required to use judgment in evaluating controls and procedures.

Changes in Internal Control over Financial Reporting

There were no changes in Choice Properties' internal controls over financial reporting in the second quarter of 2025 that materially affected or are reasonably likely to materially affect the Trust's internal control over financial reporting.

11. ENTERPRISE RISKS AND RISK MANAGEMENT

A detailed full set of risks applicable to the Choice Properties business are included in the Trust's AIF for the year ended December 31, 2024 and MD&A in the 2024 Annual Report, which are hereby incorporated by reference. The 2024 Annual Report and AIF are available online on www.sedarplus.ca. The risks and risk management strategies included in the AIF and Annual Report remain unchanged.

12. ENVIRONMENTAL, SOCIAL AND GOVERNANCE ("ESG")

Environmental, Social and Governance ("ESG") considerations are integrated into the Trust's day-to-day business activities, and are aligned with the Trust's purpose of creating enduring value through places where people thrive. ESG principles are embedded in the Trust's corporate strategy, which prioritizes maintaining a market-leading portfolio, sustaining operational excellence and executing on its development pipeline.

The Board oversees the Trust's ESG program, with the Trust's President and Chief Executive Officer as the executive sponsor.

Reporting and Disclosure

As part of the Trust's continued efforts to enhance communication with its stakeholder community, it publishes an annual ESG Report, which is available on the Trust's website at www.choicereit.ca. The ESG Report is overseen by the Board and the controls related to the Trust's ESG disclosures are reviewed by the Audit Committee. The Trust also engages a third party to provide limited assurance on the energy, water, waste and GHG emission statements in the ESG Report. The ESG Report is not incorporated by reference in the MD&A.

The Trust has a robust governance framework in place, elements of which are discussed in the Management Proxy Circular, available on the Trust's website at www.choicereit.ca, including the section titled "Statement of Governance Practices."

13. OUTLOOK⁽²⁾

We are focused on capital preservation, delivering stable and growing cash flows and net asset value appreciation. Our high-quality portfolio is primarily leased to necessity-based tenants and logistics providers, who are less sensitive to economic volatility and therefore provide stability to our overall portfolio. We will continue to advance our development program, with a focus on commercial developments, which provides us with the best opportunity to add high-quality real estate to our portfolio at a reasonable cost and drive net asset value appreciation over time.

We are confident that our business model, stable tenant base, strong balance sheet, and disciplined approach to financial management will continue to benefit us. In 2025, Choice Properties is targeting:

- Stable occupancy across the portfolio, resulting in approximately 2%-3% year-over-year growth in Same-Asset NOI, Cash Basis;
- Annual FFO per unit diluted in a range of \$1.05 to \$1.06, reflecting approximately 2%-3% year-over-year growth; and
- Strong leverage metrics, targeting Adjusted Debt to EBITDAFV below 7.5x.

14. NON-GAAP FINANCIAL MEASURES

The financial statements of Choice Properties are prepared in accordance with GAAP. However, in this MD&A, a number of measures are presented that do not have any standardized meaning under GAAP. Such measures and related per-unit amounts therefore should not be construed as alternatives to net income or cash flows from operating activities determined in accordance with GAAP and may not be comparable to similar measures presented by other real estate investment trusts or enterprises. These terms are defined below and are cross referenced, as applicable, to a reconciliation elsewhere in this MD&A to the most comparable GAAP measure. Choice Properties believes these non-GAAP financial measures and ratios provide useful information to both management and investors in measuring the financial performance and financial condition of the Trust for the reasons outlined below.

Non-GAAP Measure	Description	Reconciliation
Proportionate Share	<ul style="list-style-type: none"> Represents financial information adjusted to reflect the Trust's equity accounted joint ventures and financial real estate assets and its share of net income (loss) from equity accounted joint ventures and financial real estate assets on a proportionately consolidated basis at the Trust's ownership percentage of the related investment. Management views this method as relevant in demonstrating the Trust's ability to manage the underlying economics of the related investments, including the financial performance and cash flows and the extent to which the underlying assets are leveraged, which is an important component of risk management. 	<p>Section 2, "Balance Sheet"</p> <p>Section 7.1, "Net Income and Segment NOI Reconciliation"</p>
Net Operating Income ("NOI"), Accounting Basis	<ul style="list-style-type: none"> Defined as property rental revenue including straight-line rental revenue, reimbursed contract revenue and lease surrender revenue, less direct property operating expenses and realty taxes, and excludes certain expenses such as interest expense and indirect operating expenses in order to provide results that reflect a property's operations before consideration of its financing or the costs of operating the entity in which it is held. Management believes that NOI is an important measure of operating performance for the Trust's commercial real estate assets that is used by real estate industry analysts, investors and management, while also being a key input in determining the fair value of the Choice Properties portfolio. 	<p>Section 7.1, "Net Income and Segment NOI Reconciliation"</p>
NOI, Cash Basis	<ul style="list-style-type: none"> Defined as property rental revenue and reimbursed contract revenue, excluding straight-line rental revenue and lease surrender revenue, less direct property operating expenses and realty taxes, and excludes certain expenses such as interest expense and indirect operating expenses in order to provide results that reflect a property's operations before consideration of its financing or the costs of operating the entity in which it is held. Management believes NOI, Cash Basis is a useful measure in understanding period-over-period changes in income from operations due to occupancy, rental rates, operating costs and realty taxes. 	<p>Section 7.1, "Net Income and Segment NOI Reconciliation"</p> <p>Section 14.1, "Net Operating Income"</p>
Same-Asset NOI, Cash Basis and Same-Asset NOI, Accounting Basis	<ul style="list-style-type: none"> Same-Asset NOI is used to evaluate the period-over-period performance of those commercial properties and stabilized residential properties, owned and operated by Choice Properties since January 1, 2024, inclusive. NOI from properties that have been (i) purchased, (ii) disposed, (iii) subject to significant change as a result of new development, redevelopment, expansion, or demolition, or (iv) residential properties not yet stabilized (collectively, "Transactions") are excluded from the determination of Same-Asset NOI. Same-Asset NOI, Cash Basis, is useful in evaluating the realization of contractual rental rate changes embedded in lease agreements and/or the expiry of rent-free periods, while also being a useful measure in understanding period-over-period changes in NOI due to occupancy, rental rates, operating costs and realty taxes, before considering the changes in NOI that can be attributed to Transactions and development activities. 	<p>Section 7.2, "Net Operating Income Summary"</p>

Funds from Operations ("FFO")	<ul style="list-style-type: none"> Calculated in accordance with the Real Property Association of Canada's ("REALPAC") <i>Funds From Operations (FFO) & Adjusted Funds From Operations (AFFO) for IFRS</i> issued in January 2022. Management considers FFO to be a useful measure of operating performance as it adjusts for items included in net income (or loss) that do not arise from operating activities or do not necessarily provide an accurate depiction of the Trust's past or recurring performance, such as adjustments to fair value of Exchangeable Units, investment properties, investment in real estate securities, and unit-based compensation. From time to time, the Trust may enter into transactions that materially impact the calculation and are eliminated from the calculation for management's review purposes. Management uses and believes that FFO is a useful measure of the Trust's performance that, when compared period over period, reflects the impact on operations of trends in occupancy levels, rental rates, operating costs and realty taxes, acquisition activities and interest costs. 	<p>Section 14.2, "Funds from Operations"</p> <p>Section 14.7, "Selected Information for Comparative Purposes"</p>
Adjusted Funds from Operations ("AFFO")	<ul style="list-style-type: none"> Calculated in accordance with REALPAC's <i>Funds From Operations (FFO) & Adjusted Funds From Operations (AFFO) for IFRS</i> issued in January 2022. Management considers AFFO to be a useful measure of operating performance as it further adjusts FFO for capital expenditures that sustain income producing properties and eliminates the impact of straight-line rental revenue. AFFO is impacted by the seasonality inherent in the timing of executing property capital projects. In calculating AFFO, FFO is adjusted to exclude straight-line rental revenue, and deduct expenditure relating to internal leasing activities and property capital projects. Working capital changes, viewed as short-term cash requirements or surpluses are deemed financing activities pursuant to the methodology and are not considered when calculating AFFO. Capital expenditures which are not deducted in the calculation of AFFO comprise those which generate a new investment stream, such as constructing a new retail pad during property expansion or intensification, development activities or acquisition activities. Accordingly, AFFO differs from FFO in that AFFO excludes from its definition certain non-cash revenues and expenses recognized under GAAP, such as straight-line rental revenue, but also includes capital and leasing costs incurred during the period which are capitalized for GAAP purposes. From time to time, the Trust may enter into transactions that materially impact the calculation and are eliminated from the calculation for management's review purposes. 	<p>Section 14.3, "Adjusted Funds from Operations"</p> <p>Section 14.7, "Selected Information for Comparative Purposes"</p>
Adjusted Cash Flow from Operations ("ACFO")	<ul style="list-style-type: none"> Calculated in accordance with REALpac's <i>Adjusted Cashflow from Operations (ACFO) for IFRS</i> issued in January 2023. Management views ACFO as a useful measure of the cash generated from operations after providing for operating capital requirements, and in evaluating the ability of Choice Properties to fund distributions to Unitholders. ACFO adjusts cash flows from operations as calculated under GAAP including, but not limited to, removing the effects of distributions on Exchangeable Units, deducting amounts for property capital expenditures to sustain existing GLA and for leasing capital expenditures. The resulting ACFO will include the impact of the seasonality of property capital expenditures and the impact of fluctuations from normal operating working capital, such as changes to net rent receivable from tenants, trade accounts payable and accrued liabilities. From time to time, the Trust may enter into transactions that materially impact the calculation and are eliminated from the calculation for management's review purposes. 	<p>Section 14.4, "Adjusted Cash Flow from Operations"</p>
FFO, AFFO and ACFO Payout Ratios	<ul style="list-style-type: none"> FFO, AFFO and ACFO payout ratios are supplementary measures used by Management to assess the sustainability of the Trust's distribution payments. The ratios are calculated using cash distributions declared divided by FFO, AFFO or ACFO, as applicable. 	<p>Section 7.3, "Other Key Performance Indicators"</p>

Earnings before Interest, Taxes, Depreciation, Amortization and Fair Value ("EBITDAFV")	<ul style="list-style-type: none"> Defined as net income (loss) attributable to Unitholders, reversing, where applicable, income taxes, interest expense, amortization expense, depreciation expense, adjustments to fair value and other adjustments as allowed in the Trust Indentures, as supplemented. Management believes EBITDAFV is useful in assessing the Trust's ability to service its debt, finance capital expenditures and provide distributions to its Unitholders. 	Section 14.6, "Earnings before Interest, Taxes, Depreciation, Amortization and Fair Value"
Cash Retained after Distributions	<ul style="list-style-type: none"> Calculated as ACFO less cash distributions declared. Represents the portion of ACFO retained within Choice Properties which can be used to invest in new acquisitions, development properties and capital activity. 	Section 4.4, "Distribution Excess / Shortfall Analysis"
Total Adjusted Debt	<ul style="list-style-type: none"> Defined as variable rate debt (construction loans, mortgages, and credit facility) and fixed rate debt (senior unsecured debentures, construction loans and mortgages), as measured on a proportionate share basis, and does not include the Exchangeable Units which are included as part of unit equity on account of the Exchangeable Units being economically equivalent and receiving equal distributions to the Trust Units. Total Adjusted Debt is presented on a net basis to include the impact of other finance charges such as debt placement costs and discounts or premiums, and defeasance or other prepayments of debt. 	Section 4.5, "Components of Total Adjusted Debt"
Net Asset Value ("NAV")	<ul style="list-style-type: none"> NAV is an alternative measurement of equity. It is calculated by summing Unitholder's Equity and the fair value of the Trust's Exchangeable Units. Under GAAP, Exchangeable Units are considered debt. The Exchangeable Units are not required to be repaid and the holder of these units has the right to convert them into Units, therefore management considers the Exchangeable Units to be equivalent to equity. NAV is a useful measure as it reflects management's view of the intrinsic value of the Trust. NAV per unit allows management to determine if the Trust is trading at a discount or premium to its intrinsic value. 	Section 4.9, "Net Asset Value"
Adjusted Debt to Total Assets	<ul style="list-style-type: none"> Determined by dividing Total Adjusted Debt (as defined above) by total assets as presented on a proportionate share basis⁽¹⁾ and can be interpreted as the proportion of the Trust's assets that are financed by debt. Management believes this ratio is useful in evaluating the Trust's flexibility to incur additional financial leverage. 	Section 4.6, "Financial Condition" Section 14.7, "Selected Information for Comparative Purposes"
Debt Service Coverage	<ul style="list-style-type: none"> Calculated as EBITDAFV divided by interest expense on the Total Adjusted Debt and all regularly scheduled principal payments made with respect to indebtedness during such period (other than any balloon, bullet or similar principal payable at maturity or which repays such indebtedness in full). This ratio is calculated based on the Trust Indentures, as supplemented. This ratio is useful in determining the ability of Choice Properties to service the interest and principal installment requirements of its outstanding debt. 	Section 4.6, "Financial Condition" Section 14.7, "Selected Information for Comparative Purpose"
Adjusted Debt to EBITDAFV and Adjusted Debt to EBITDAFV, net of cash	<ul style="list-style-type: none"> Calculated as Total Adjusted Debt divided by EBITDAFV. This ratio is used to assess the financial leverage of Choice Properties, measure its ability to meet financial obligations, and provide a snapshot of its balance sheet strength. Management also presents this ratio with Total Adjusted Debt calculated net of cash and cash equivalents at the measurement date. 	Section 4.6, "Financial Condition"
Interest Coverage	<ul style="list-style-type: none"> Calculated as EBITDAFV divided by interest expense on the Total Adjusted Debt incurred by Choice Properties for the period. This ratio is useful in determining Choice Properties' ability to service the interest requirements of its outstanding debt. 	Section 4.6, "Financial Condition"
Liquidity	<ul style="list-style-type: none"> Calculated based on the sum of total cash and cash equivalents and the undrawn portion of the revolving unsecured operating line of credit. 	Section 4, "Liquidity and Capital Resources" Section 4.1, "Liquidity and Capital Structure"

(i) The timing of the recognition of interest expense and income differs from the cash payment and collection.

(ii) Excludes adjustment to fair value of investment properties for equity accounted joint ventures.

(iii) ACFO is adjusted each quarter for fluctuations in non-cash working capital due to the timing of realty taxes prepaid or payable and prepaid insurance. The payments for these operating expenses tend to have quarterly, seasonal fluctuations that even out on an annual basis. ACFO is also adjusted each quarter to remove fluctuations in non-cash working capital, which are not related to sustainable operating activities.

(iv) ACFO payout ratio is calculated as the cash distributions declared divided by ACFO.

Based on the Real Property Association of Canada’s *Adjusted Cashflow from Operations (ACFO) for IFRS* issued in January 2023, Choice Properties adjusts ACFO for amounts included in the net change in non-cash working capital, a component of cash flows from operating activities, to eliminate fluctuations that are not indicative of sustainable cash available for distribution. The resulting remaining impacts on ACFO from changes in non-cash working capital are calculated below:

The significant assumptions and inputs used in the valuation techniques to estimate the fair value of income producing properties are classified as Level 3 in the fair value hierarchy as certain inputs for the valuation are not based on observable market data points.

Independent Appraisals

Properties are typically independently appraised at the time of acquisition. In addition, Choice Properties has engaged independent nationally-recognized valuation firms to appraise its investment properties such that the majority of the portfolio will be independently appraised at least once over a four-year period.

The properties independently appraised each year represent a subset of the property types and geographic distribution of the overall portfolio and includes properties owned within equity accounted joint ventures and properties recognized as financial real estate assets. The aggregate fair value of investment properties independently appraised during each period, in accordance with the Trust's policy, is as follows:

(\$ thousands except where otherwise indicated)	Six months ended June 30, 2025		Year ended December 31, 2024	
	Number of income producing properties	Fair value	Number of income producing properties	Fair value

Rent receivables

In determining the expected credit losses, the Trust takes into account the payment history and future expectations of likely default events (i.e. tenants asking for rental concessions or stating they will not be making rental payments on the due date) based on actual or expected insolvency filings or company voluntary arrangements and likely deferrals of payments due. These assessments are made on a tenant-by-tenant basis.

The Trust's assessment of expected credit losses is inherently subjective due to the forward-looking nature of the assessments. As a result, the value of the expected credit loss is subject to a degree of uncertainty and is made on the basis of assumptions which may not prove to be accurate.

Choice Properties has a \$1,500,000 senior unsecured committed revolving credit facility provided by a syndicate of lenders. During the second quarter of 2025, the Trust extended the maturity date for the credit facility from June 13, 2029 to May 21, 2030.

Under the credit facility, the Trust has the ability to draw funds at variable rates in either Canadian dollars or U.S. dollars. Canadian dollar-denominated borrowings bear interest at either the Canadian bank prime rate plus 0.20% or Canadian Overnight Repo Rate Average ("CORRA") plus 1.20% and a daily compounded CORRA adjustment of approximately 0.30%, and U.S. dollar-denominated borrowings bear interest at the U.S. prime rate plus 0.30% or Secured Overnight Financing Rate ("SOFR") plus 1.30%. The pricing is contingent on the credit ratings for Choice Properties from either DBRS remaining at BBB (high) or S&P remaining at BBB+. Concurrently with any U.S. dollar draws, the Trust enters into cross currency swaps to exchange its U.S. dollar borrowings into Canadian dollar borrowings. The Trust applies hedge accounting to the cross currency swaps.

As at June 30, 2025, the Trust had U.S. dollar-denominated borrowings totaling \$145,529, equivalent to \$200,000 Canadian dollars (December 31, 2024 - \$nil) and \$nil (December 31, 2024 - \$nil) in Canadian dollar-denominated borrowings. Concurrent with the draws, the full amount of U.S. dollar-denominated borrowings was exchanged into Canadian dollars. As at June 30, 2025, the credit facility balance was revalued at \$198,820 Canadian dollars.

The credit facility contains certain financial covenants. As at June 30, 2025, the Trust was in compliance with all its financial covenants for the credit facility. The credit facility is subject to an annual commitment fee of 0.24% of the undrawn balance.

Distributions

Choice Properties' Board retains full discretion with respect to the timing and quantum of distributions and expects to distribute the amount necessary to ensure the Trust will not be liable to pay income taxes under Part I of the *Income Tax Act (Canada)*⁽ⁱ⁾. Accordingly, no provision for current income taxes payable is required, except for amounts incurred for the Trust's Canadian corporate subsidiaries. The taxable income allocated to the Trust and Exchangeable Unitholders may vary in certain taxation years. Over time, such differences, in aggregate, are expected to be minimal.

In the six months ended June 30, 2025, Choice Properties declared cash distributions of \$0.384 per unit or \$277,455 in aggregate (June 30, 2024 - \$0.378 per unit or \$273,779, respectively), including distributions to holders of Exchangeable Units, which are reported as interest expense. Distributions declared to Unitholders of record at the close of business on the last business day of a month are paid on or about the 15th day of the following month.

On February 12, 2025, the Board reviewed and approved an increase of distributions to \$0.77 per unit per annum from the previous rate of \$0.76 per unit per annum (an increase of 1.3%). The increase was effective for Unitholders of record on March 31, 2025.

The holders of Exchangeable Units may elect to defer receipt of all, or a portion of distributions declared by the Partnership until the first date following the end of the fiscal year. If the holder elects to defer, the Partnership will loan the holder the amount equal to the deferred distribution without interest, and the loan will be due and payable in full on the first business day following the end of the fiscal year the loan was advanced.

(i) Choice Properties qualifies as a "mutual fund trust" and a "real estate investment trust" under the Income Tax Act (Canada).

Choice Properties enters into long-term lease contracts with tenants for space in its properties. Initial lease terms are generally between three and ten years for commercial units and longer terms for food store anchors. Leases generally provide for the tenant to pay Choice Properties base rent, with provisions for contractual increases in base rent over the term of the lease, plus operating cost, property tax and insurance recoveries. Many of the leases with Loblaw are for stand-alone retail sites. Loblaw is directly responsible for the operating costs on such sites.

There were no transfers between levels of the fair value hierarchy during the periods.

Designated hedging derivatives consist of interest rate swaps to hedge the interest rate associated with an equivalent amount of variable rate mortgages, and cross currency swaps to hedge foreign exchange associated with the equivalent amount borrowed in USD on the Trust's credit facility (Note 10). Choice Properties is involved in and potentially subject to various claims by third parties arising from the normal course of conduct of its business including regulatory, property and environmental claims. In addition, Choice Properties is potentially subject to regular audits from federal and provincial tax authorities, and as a result of these audits may receive assessments and reassessments. Although such matters cannot be predicted with certainty, management currently considers Choice Properties' exposure to such claims and litigation, to the extent not covered by Choice Properties' insurance policies or otherwise provided for, not to be material to the condensed consolidated financial statements, but they may have a material impact in future periods.

a. Legal Proceedings

Choice Properties is potentially the subject of various legal proceedings and claims that arise in the ordinary course of business. The outcome of all these proceedings and claims is uncertain. Based on information currently available, any proceedings and claims, individually and in the aggregate, are not expected to have a material impact on Choice Properties.

b. Guarantees

Choice Properties issues letters of credit to support guarantees related to its investment properties including maintenance and development obligations to municipal authorities. The Trust has aggregate letters of credit with a maximum capacity of \$82,385 at the Trust's ownership interest. As at June 30, 2025, the aggregate gross potential liability related to these letters of credit totalled \$35,604 (December 31, 2024 - \$37,479).

Choice Properties' credit facility and senior unsecured debentures are guaranteed by each of the General Partner, the Partnership and any other person that becomes a subsidiary of Choice Properties (with certain exceptions). In the case of default by the Trust, the indenture trustee will be entitled to seek redress from the guarantors for the guaranteed obligations in the same manner and upon the same terms that it may seek to enforce the obligations of the Trust. These guarantees are intended to eliminate structural subordination, which would otherwise arise as a consequence of Choice Properties' assets being primarily held in various subsidiaries of the Trust.

c. Commitments

Choice Properties has entered into contracts for development and property capital projects and has other contractual obligations. The Trust is committed to future payments of approximately \$491,000, of which \$327,000 relates to equity accounted joint ventures, as at June 30, 2025 (December 31, 2024 - \$525,000 and \$366,000, respectively).

d. Contingent Liabilities

Generally, the Trust is only liable for its proportionate share of the obligations of the co-ownerships and equity accounted joint ventures in which it participates, except in limited circumstances. Credit risk arises in the event that the partners default on the payment of their proportionate share of such obligations. The Trust has exposure to its partners' share of mortgage debt obligations within its equity accounted joint ventures in the amount of \$428,325 as at June 30, 2025 (December 31, 2024 - \$422,876). This credit risk is mitigated as the Trust generally has recourse under its co-ownership agreements and joint venture arrangements in the event of default of its partners, in which case the Trust's claim would be against both the underlying real estate investments and the partners that are in default. Management believes that the assets of its co-ownerships and equity accounted joint ventures are sufficient for the purpose of satisfying any obligation of the Trust should the Trust's partner default.

Upon expiry of the initial term, the Strategic Alliance Agreement renewed until July 5, 2033 or the date on which GWL and its affiliates own less than 50% of the Trust on a fully diluted basis. The Strategic Alliance Agreement provides Choice Properties with important rights that are expected to meaningfully contribute to the Trust's growth. Subject to certain exceptions, rights include:

- Loblaw is generally required to present shopping centre property acquisitions in Canada to Choice Properties to allow the Trust a right of first opportunity to acquire the property itself; and
- Choice Properties has the right to participate in future shopping centre developments involving Loblaw.

Included in certain investment properties acquired from Loblaw is excess land with development potential. In accordance with the Strategic Alliance Agreement, Choice Properties will compensate Loblaw, over time, with intensification payments, as Choice Properties pursues development, intensification or redevelopment of such excess land.
